RFQ Engineering and Construction Management Services for Evers Road Bridge

The following questions were asked via email communication on Mon., 05/16/2016. The answers appear in **red** and are provided here for your reference.

1. Item 11 B, 4th bullet; Available resources...
This item requires experience on “City of San Antonio, or other municipal or county bridges...”.
Is specific City of San Antonio experience preferred? **No**
Is experience in this region of the state preferred? **No**
2. Item 13 D deliverable is Environmental study, utility review, and project clearance. Is it anticipated that environmental permitting will be required, particularly Clean Water Act Section 404? **We won't know until we get to the TxDOT review period, but we don't expect to have to get a 404 permit.**
Are there any known major utility conflicts which could impact environmental permitting?
None that I know of, however, we will have utility coordination with City Public Service and with the San Antonio Water System, as both entities have utilities in this area.
3. General question – Is there any preference for firms based in Leon Valley or in the San Antonio area? **In the San Antonio area or at least an office within the San Antonio Metropolitan area, so that we have weekly construction management services.**
Is there any preference for firms previously or currently engaged in services to the City? **No**
